

CITY OF WOODINVILLE

2024 STATE LEGISLATIVE AGENDA

TRANSIT AND INFRASTRUCTURE

Fulfill the promises of WSDOT's Move Ahead WA Package.

Obligate the \$5 million in previously appropriated Eastrail funds in the next biennium so federal funds are not put at risk.

PUBLIC SAFETY

Support resources for law enforcement recruitment and retention. Provide adequate resources, such as continued funding for the City's successful CORE Connect program, to help address behavioral health needs.

ENVIRONMENTAL STEWARDSHIP

Encourage legislation, partnerships, and funding that incentivizes and supports the City's adopted Climate Action Plan. The City is working to protect salmon populations and remove blockages in waterways.

SUPPORT LOCAL COMMUNITIES

- Local context matters and **land use decisions to fulfill requirements of the Growth Management Act are best made at the local level.**
- Promote multi-modal transportation and encourage **transit-oriented development along reliable transit routes.**
- Strong schools lead to thriving local communities and a strong economy. The City encourages prioritization of a robust public education system by **fully funding local school districts**

Woodinville supports the legislative agendas of Association of Washington Cites, Sound Cities Association, and A Regional Coalition for Housing
